Dye Ink

BCINKS produces quality Inkjet ink for
Canon/HP/Epson/brother desktop printer

Dye Ink Feature:

- Wide color gamut,Great color accuracy
- Stability quality,Fluency printing ,Lower your printing cost
- No heavy metals, no long-term health problem and pollution environment
- Water base formula,no toxicity,no chemicals hazards.

Stability Quality,Vivid Color

Printing images with BCINKS dye-based ink in 2008,the color looks still vivid and true in 2024 (after 16 years storage)

Application:
For printing shop/small businesses/Home use/Copy paper/Inkjet
paper/photo paper etc

Pigment Ink For High-speed Business Inkjet Printer

BCINKS compatible pigment ink worked well on Epson, canon HP desktop printer and wide format printer.

BCINKS ink chooses nano-scale raw materials from top suppliers in the world to ensure characteristics that are as good as OEM brands.High abrasion resistance and vivid color performance. BCINKS pigment ink can be printed and stored under various conditions.All the ink has passed PALL 3-grade absolute filtration, avoid clogging issue.

BCINKS Pigment ink designed work with EPS workforce printers.

Feature:

- specially formulated Ink for high-speed printing to meet Powerful business productivity
- Quick-drying, water-resistant, UV resistant
- Vivid Color and sharp black text

Sublimation Ink

Sublimation is the process of transferring dye to a fabric using heat. The images and graphics are printed on special paper, placed on the garment and heat is applied, allowing the ink to become part of the fabric. This will leave you with a more breathable, soft-hand feel to the fabric. The best part is that the numbers, letters, and graphics do not peel, wear off, or come out in the wash.

For wide format Printers

Application:

apparel sportswear/fashion cloth/Curtain/pillow/Custom luggage cover/poster/banner etc

Direct Sublimation Ink
Disperse Dye Ink

Direct Sublimation Ink (disperse dye ink) is ideal for high-speed direct digital printing of polyester fabrics, later heat is applied to fix the color onto the fabric.then the dyes on this type of ink have to ability to become part of the fabric .This ink can work on following brand printer model.

For Epson Printhead: i3200/DX4/DX5/DX6/DX7/5113
For Mimaki/Mutoh/Roland

Application

For Polyester (eg: Fashion cloth/flag/banner/home/decoration/ outdoor/signs/promotional /curtains/carpet)

Advantage

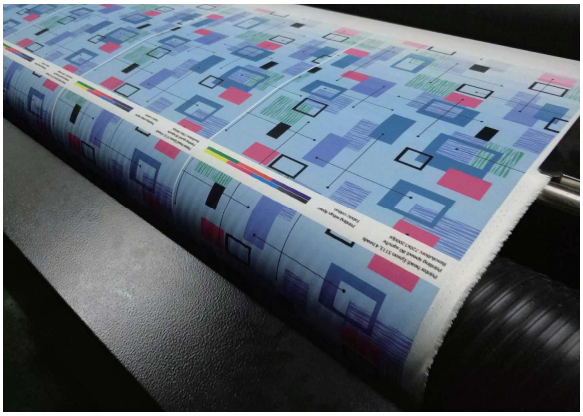

- Print directly onto pretreatment polyester for digital printing
- No need paper, save printing cost
- High density ink, closer color shade on both sides of fabric
- Longer open time, suitable for high speed printing
- Vivid Color, Soft touch, Excellent washing resistance
- Self-cleaning formula, easy to dissolve, improves head performance.

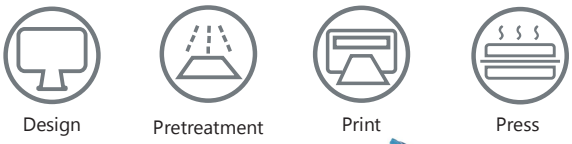

Digital Textile Ink

Textile ink for RTR (Roll to Roll) Belt printer

(also known as Direct-to-Fabric printing) is a printing method, which involves spraying ink directly a roll fabric, the ink is soaked by the fabric and becomes part of the final product, preventing any distortion to the print, such as cracking, peeling or fading.This process is ideal for producing multi-color designs on various apparel.

C M Y BK FM FY R OR G B

For Epson head i3200/1600/4720/xp600

Recommended fabric 100% cotton/Linen/Canvas
Combed cotton/High-cotton blends(blends with a high proportion of cottom)

How to use it

- Preparation: Pretreatment the roll fabric
- Printing: Create your design and Printing
- by the Roll to Roll belt Machine
- Drying and Fixation

Textile ink for DTG (Direct to Garment)

C M Y BK W FM FY

For Epson head i3200/1600 /4720/xp600/L1800/L805/P400/ etc

Pretreatment Liquid	For Light Colored garments
	For Dark Colored garments

OEKO TEX®
ECO PASSPORT
SH150 221614
TESTEX

Feature

- High adhesion to fabric
- Vivid color performance
- Strong washing and wearing resistance
- Dry-rubbing resistance
- Good color fastness to crocking
- Soft feel
- Eco passport certification by OEKO-TEX
- ZDHC(Zero Discharge Hazardous)Lelvel: ZDHC Level 1

Application

T-Shirts/Sweatshirts/Hoodies/Button/Zippered/Pullover Garments Pants/Leggings/Handbags

Notes

Pre-treatment is necessary for printing on deep color cloth

Pre-treatment

Before printing, apply pre-treatment using either a manual sprayer or pre-treatment machine and then dry garment using a heat press.

Textile ink for DTF (Direct to Film)

Direct-to-Film (DTF) printing is a relatively new printing technology in the textile and garment industry. It involves printing designs onto a special transfer film, which is then transferred onto the fabric or other materials using heat and pressure.

DTF printing offers a versatile, high-quality, and cost-effective solution for custom printing on a wide range of materials.

BCINKS offer you DTF turnkey Solution

DTF printer: DTF302/DTF602/DTF604
DTF Ink
Pet Film
Hot melt adhesive powder
Heat Press Machine

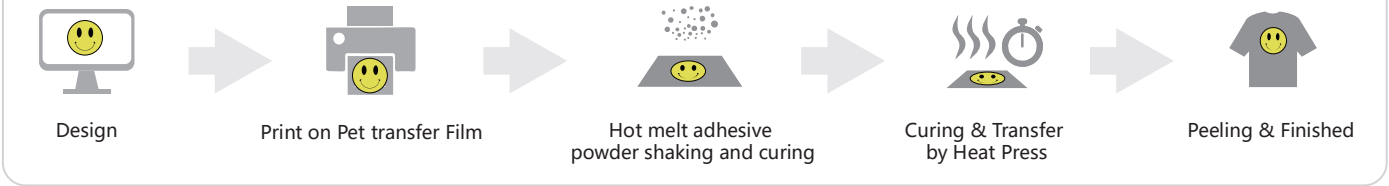

Feature

- Stability & Super Whiteness
- Excellent whiteness coverage
- Broad Color gamut,Good color reproduction,Good compliance between white ink and color ink.
- Better Washing durability & Rub resistance
- Refined ink formulation to minimize the risk of oil back(or oily residues)
- OEKO-TEX ECO PASSPORT Certificate ECO PASSPORT
- ZDHC(Zero Discharge Hazardous): ZDHC Level 1

Application: customize t-shirts/sweatshirts/Hoodies/caps/canvas/shoes etc/wash label/neck label/neck care label/tagless label/gift

Art Paper Ink

Art paper ink is called Multi-functional pigment ink,It is one type of improved water based pigment ink which can work on art paper.

This ink mainly use on Epson printer head,It can be directly printed on art coated and uncoated paper (offset printing paper/art paper) with Epson printer.

And it makes your inkjet printer an offset machine and lower your cost, you can print any quantity at any time. Cheap and convenient.

BCINKS Art Paper Ink

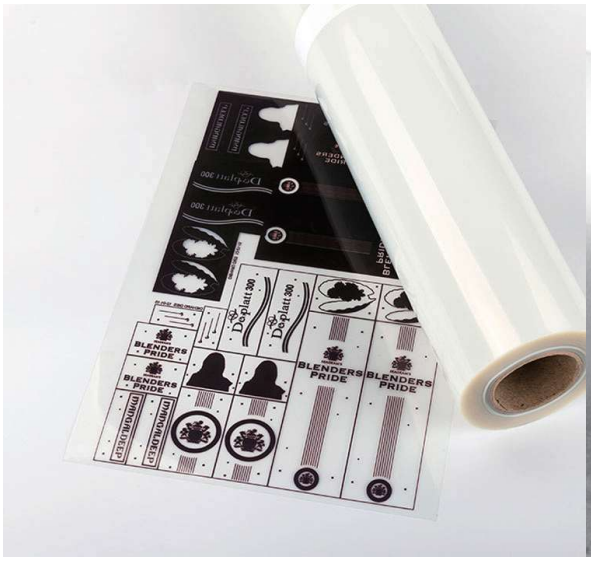

Features

- True art paper ink,no coating needed.
- Waterproof,great rub-resistance.

Bulk Ink Package: 20KG, 5KG, 2KG, 1KG, 500G, 250G,100G, 140G, 135G, 100G, 70G, 50G

Film Plate Making Ink

For Printer Model:

Mainly for Epson, Roland, etc. piezoelectric print head

Color:

- Black/Deep Black

Features:

- High density of blackness
- Fine sharp dots
- Quick drying after printing
- No clogging of print head
- Good quality at reasonable price

Application:

For CAD, film printing and plate making

Bulk Ink Package: 20KG, 5KG, 2KG, 1KG, 500G, 250G,140G, 135G, 100G, 70G, 50G

Corrugated Cardboard Ink

BCINKS Corrugated cardboard Ink was developed for printing on corrugated packaging, Our inks dry on the substrate quickly in high-speed production systems yet remain fluid on the print heads to avoid costly downtime for upkeep. and it suitable for ordinary yellow corrugated cardboard,ordinary white corrugated cardboard /coated corrugated cardboard box.

Advantage Of inkjet technology for cardboard printing

- Cost-effective for high-speed, high-volume production.
- Easy processing,Constant printing process
- Manufactuer can nimble in producing boxes and avoid over-or-under-forecasting the amount of cardboard they' ll need.
- Any Quantity/Any Design /personalized or customized corrugated paper carton printing is available.

We have two type of ink for Corrugated cardboard

Water-based corrugated cardboard pigment inks

Color

Cyan Magenta Yellow Black

Feature: Water resistance, UV resistance,

Water-based corrugated cardboard Dye inks

Color

Cyan Magenta Yellow Black

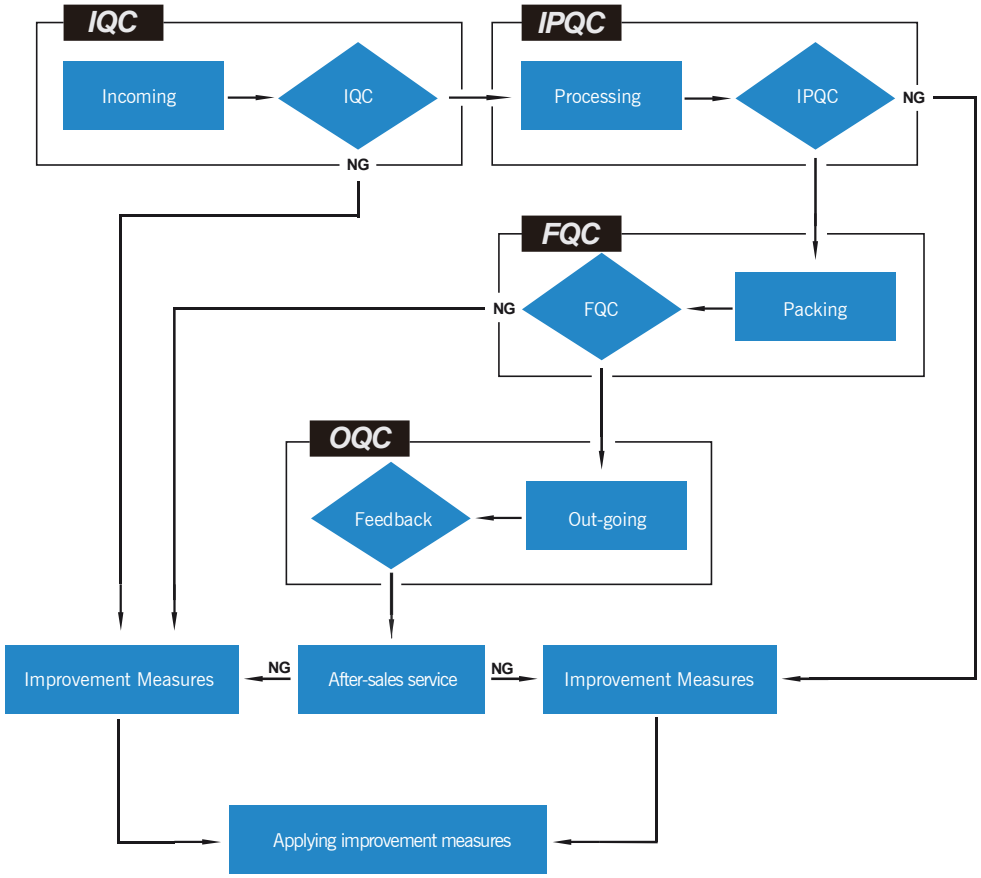

Feature: Ultra Black, Vivid Color performance

Compatible for printer model: Epson print head

Bulk Ink Package: 20KG, 5KG, 2KG, 1KG, 500G, 250G,140G, 135G, 100G, 70G, 50G
